English coursework: Arabic Literature, Creative Writing, English Literature, Japanese Literature, Medieval Literature and Modern Literature.

## Experience

---

### Senior Interaction Designer

RDVO, Somerville MA

June 2006 – Present

Outline, design and implement interaction and user interfaces for clients across various platforms including devices, web applications and desktop software.

Collaborate with the strategy, design and development stakeholders to ensure behavioral, aesthetic and brand consistency throughout the project lifecycle.

Oversee the development of XHTML and CSS to promote web standards and accessibility best practices for web based projects.

### Information Designer

Tank Design, Cambridge MA

(Contract 2003 – 2004), June 2004 – March 2006

Designed and developed interactive solutions for clients such as FedEx, FranklinCovey, Film director Hal Hartley, Hilton Hotels, MIT, Monster & Symantec/Norton.

Created and designed interactive behavior for numerous websites, web-based prototypes for usability testing purposes and computer applications.

Surveyed and organized information that clients wished to display or make available in the above instances.

### Interface Developer

Razorfish, Cambridge MA

June 2000 – May 2001

Worked with the design and architecture teams to formulate and develop interactive web solutions.

Provided insight into interface/information design during development process.

Developed and ultimately implemented these ideas using various technologies (DHTML/XHTML, CSS, Javascript, XML/XSLT, ASP).

## Awards & Honors

---

2007 Webby Award, Government - <http://mbta.com>

2007 MITX Award, Best Government Web site - <http://mbta.com>

2007 MITX Award, Best Technology Web site - <http://pht.com>

### Urban Design & Architecture

Certificate

Graduate School of Design, Harvard University

Summer 2003

Successfully graduated an intensive, 6 week summer program in Urban Design and Architecture.

Completed three major projects, which dealt with urban design and planning principles in a real-world context.

Crafted models, developed design ideas on a grand scale and created master plans.

### Freelance Designer

Dividual

May 2001 – Present

Work with a variety of clientele to architect, design and develop web sites and interactive applications.

Help develop logo, identity, and print solutions for clients from initial conceiving phase to completion.

Work with other contractors on developing web presence for clients.

### Part-time Producer & Newswriter

WBUR 90.9 FM (On Point Radio Program, Newsdesk)

January 2002 – June 2003

Worked with On Point staff to produce daily, 2 hour live news & current events program.

Helped suggest topics for daily program, wrote and edited show scripts, and researched guests to be interviewed.

Interviewed news makers, government officials, professors, etc. to gauge their relevancy for the current program.

### General Manager

WMFO 91.5 FM, Medford MA

May 1998 – May 2000

Coordinated and supervised all station management and maintenance.

Directed and managed 150 staff members in order to ensure constant broadcast.

Constructed and implemented financial allocations for all station expenditures.

Chaired meetings of executive board and staff for policy regulation and execution.

## Skills & Interests

---

I have a thorough working knowledge of web and prototyping technologies, including XHTML, CSS, "AJAX", PHP, ASP, & Flash. I am *extremely* interested in collaborative design, and its use to solve design problems. My design interests include: Interaction Design, Product Design, Typography, Architecture & Film. I'm also really into reading, gaming, music, consumer technologies, film, basketball and my lovely wife.
